

# Report of Team Simulation Project

Kevin Cyu[2]

kevinbird61@gmail.com

*Nation Cheng Kung University*

December 5, 2017

## **Abstract**

This document is generated by docoGen. We'll introduce our effort in this simulation project later.

## 0.1 Introduction

About our simulation project

- Course of network simulation in NCKU[1]
- For education only.

### 0.1.1 Why we using Docogen as document generator?

Standalone document generator

- Edit without insert configuration into your source code.
- And author is Kevin Cyu[2]

## 0.2 FlowChart

That's how our program work

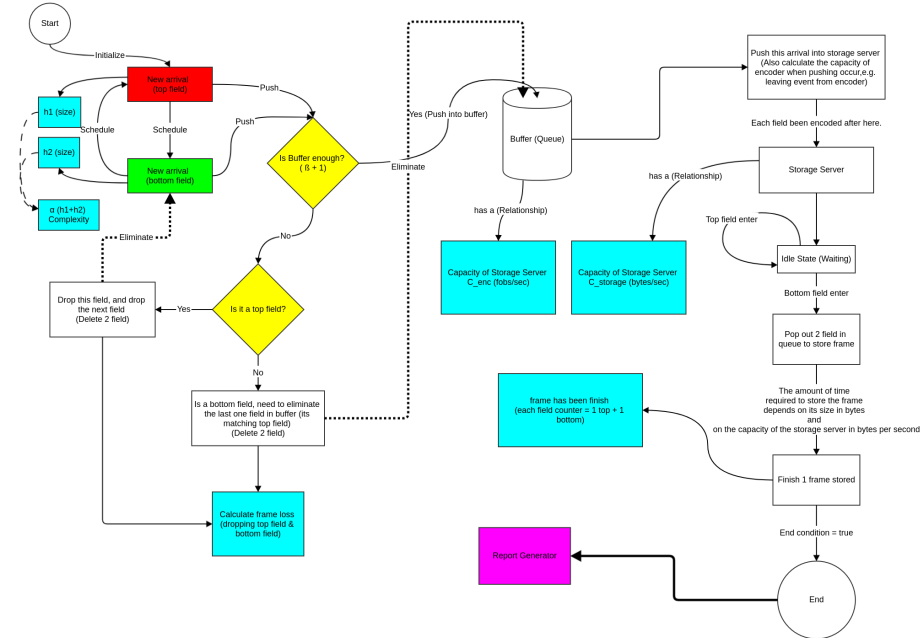

Figure 1: Entire system

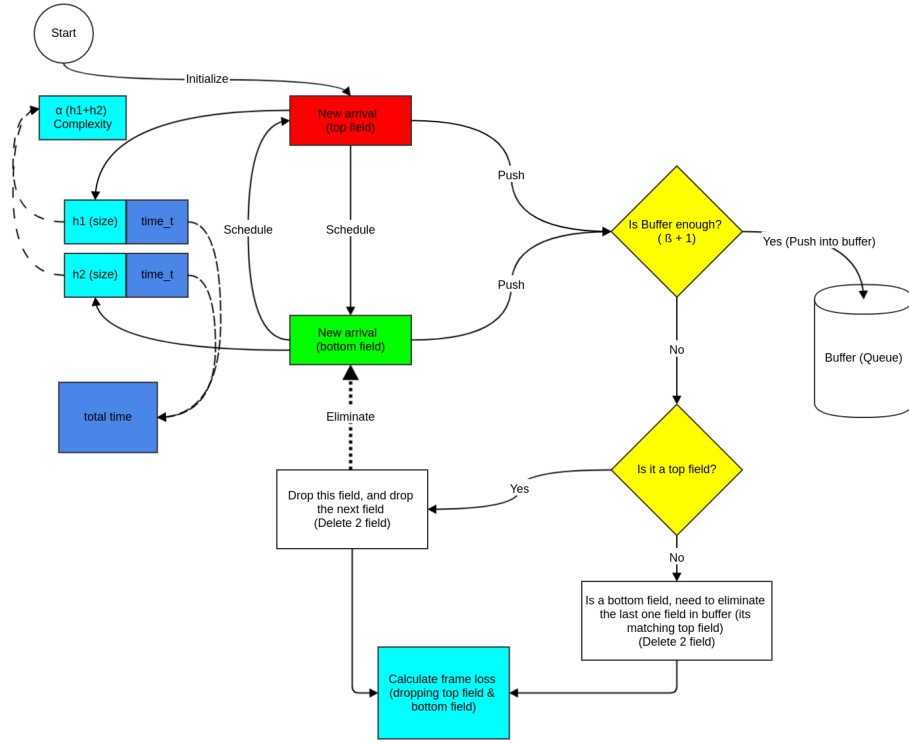

Figure 2: Initial routine + Encoder

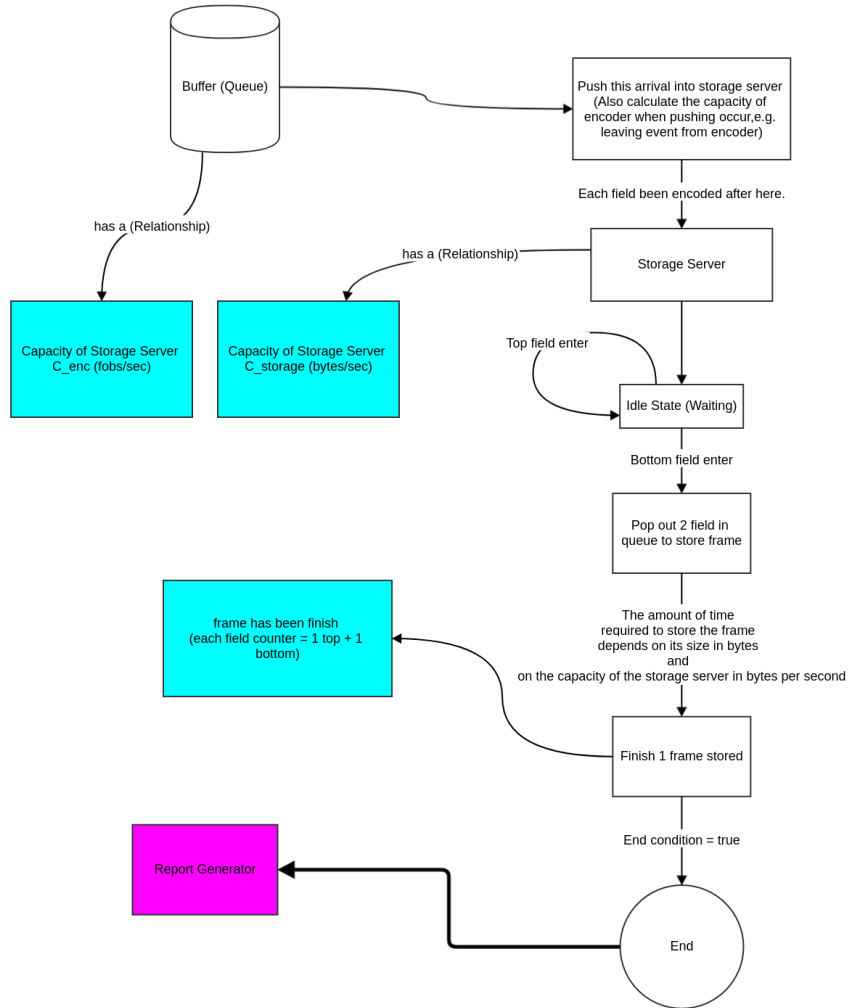

Figure 3: Encoder + Storage server

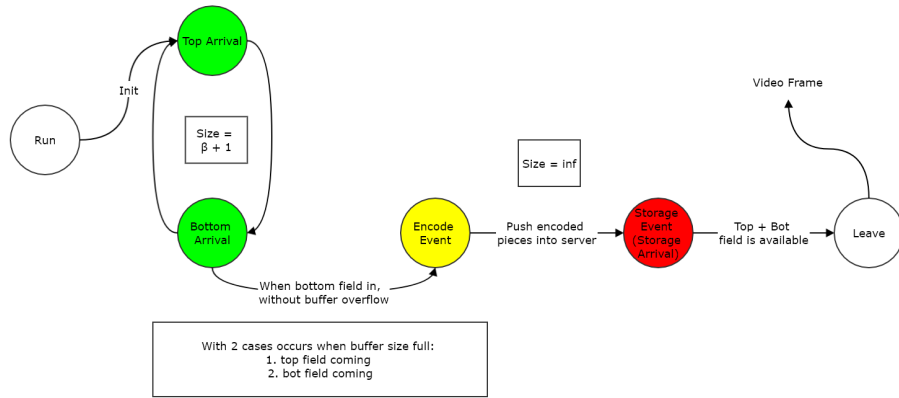

Figure 4: Simulation graph of project

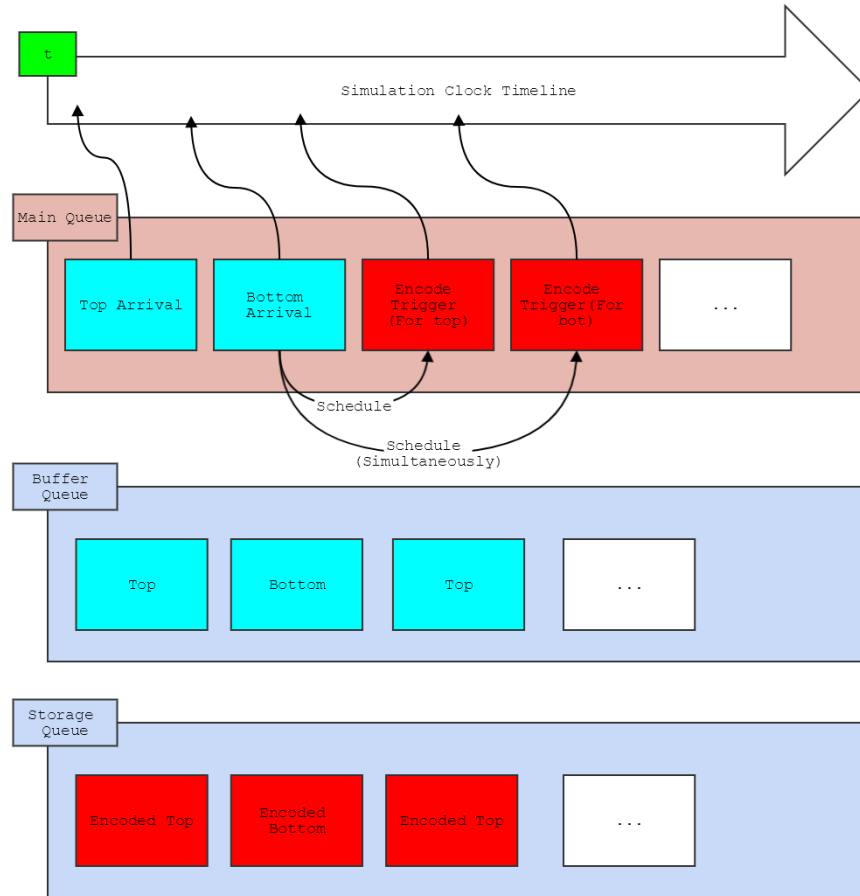

Figure 5: Memory usage(Queue)

Figure 6: Entire Simulation System Report
